

MICHAEL ANDERSON

GREEN BUILDING OPERATIONS DIRECTOR

PROFILE

Accomplished Green Building Manager with extensive expertise in sustainable project development and environmental management. Renowned for pioneering initiatives that significantly reduce carbon footprints and enhance energy efficiency across diverse portfolios. Proven track record in managing large-scale green building projects from inception to completion, ensuring compliance with international sustainability standards. Adept in stakeholder engagement, facilitating collaborative efforts that yield innovative solutions to complex environmental challenges.

EXPERIENCE

GREEN BUILDING OPERATIONS DIRECTOR

Sustainable Spaces Ltd.

2016 - Present

- Led a team of sustainability experts to implement energy-efficient operational practices across a portfolio of properties.
- Conducted lifecycle assessments to identify opportunities for sustainable upgrades and renovations.
- Developed comprehensive training programs for staff on sustainable operations and maintenance.
- Analyzed utility data to track energy savings and optimize resource allocation.
- Collaborated with local authorities on initiatives to promote green building practices within the community.
- Prepared sustainability reports for executive leadership and external stakeholders.

SUSTAINABILITY PROJECT COORDINATOR

Eco-Friendly Developments

2014 - 2016

- Coordinated project timelines and deliverables for green building initiatives, ensuring adherence to sustainability goals.
- Facilitated workshops to educate clients about the benefits of sustainable building practices.
- Assisted in the preparation of grant applications for funding sustainable projects.
- Managed relationships with vendors to secure sustainable materials and services.
- Conducted post-occupancy evaluations to assess building performance and user satisfaction.
- Maintained up-to-date knowledge of industry trends and regulatory changes affecting green buildings.
