EDUCATION

Ph.D. in Horticultural Science
Texas A&M University
2016-2020

SKILLS

- Plant Breeding
- Experimental Design
- Data Analysis
- Scientific Research
- Community Outreach
- Sustainable Agriculture

LANGUAGES

- English
- Spanish
- French

💼 WORK EXPERIENCE

Research Horticulturist   2020-2023
AgriGen Solutions

- Conducted research on plant breeding techniques to enhance crop traits.
- Designed and implemented experiments to assess plant performance under various conditions.
- Collaborated with scientists to analyze data and publish findings.
- Presented research at national horticultural conferences.
- Developed educational materials to disseminate findings to the public.
- Engaged with local farmers to apply research in practical settings.

Horticultural Research Assistant   2019-2020
Green Innovations Lab

- Supported research projects focused on sustainable horticultural practices.
- Assisted in data collection and analysis for various plant trials.
- Maintained greenhouse facilities and ensured proper plant care.
- Collaborated with team members on project design and implementation.
- Documented research findings and contributed to reports.
- Participated in outreach initiatives to educate the community on research impacts.

⭐ ACHIEVEMENTS

- Published over 10 peer-reviewed articles in horticultural journals.
- Received the 'Outstanding Researcher' award in 2020 for contributions to plant science.
- Secured funding for research projects totaling over $250,000.
