MICHAEL ANDERSON

SENIOR GRINDING TECHNICIAN

Highly skilled Grinding and Polishing Technician with a robust background in metalworking and fabrication, boasting over 12 years of experience. Proficient in a wide range of grinding and polishing techniques, complemented by a solid understanding of industry standards and best practices. Demonstrates an unwavering commitment to quality and precision, consistently producing superior surface finishes that meet or exceed client expectations.

PROFESSIONAL EXPERIENCE

Elite Manufacturing Group

Mar 2018 - Present

Senior Grinding Technician

- Led a team of technicians in executing grinding operations across multiple projects.
- Developed and implemented standard operating procedures for grinding processes.
- Analyzed production data to identify trends and opportunities for process optimization.
- Trained staff on advanced grinding techniques and safety protocols.
- Maintained equipment and tools to ensure optimal performance and longevity.
- Collaborated with quality engineers to troubleshoot and resolve production issues.

Surface Solutions Inc.

Dec 2015 - Jan 2018

Polishing Engineer

- Designed and executed polishing processes tailored to specific customer requirements.
- Utilized advanced polishing tools to achieve precision finishes on high-value components.
- Conducted root cause analysis for defects, implementing corrective actions that reduced rework rates.
- Maintained detailed records of polishing operations for compliance and quality assurance.
- Mentored junior technicians in polishing methodologies and best practices.
- Evaluated new polishing technologies for potential integration into existing workflows.

ACHIEVEMENTS

- Implemented a new grinding process that improved production efficiency by 20%.
- Received company award for excellence in quality management and team leadership.
- Successfully reduced surface defects by 30% through targeted training and process adjustments.
