

Michael ANDERSON

CNC GRINDING TECHNICIAN

Innovative and results-driven Grinding and Polishing Technician with a focus on high-precision manufacturing processes. Brings over 9 years of dedicated experience in optimizing grinding and polishing operations within the automotive sector. Demonstrates a comprehensive understanding of CNC technology and its applications in achieving superior product quality. Recognized for the ability to adapt to rapidly changing production demands and enhance workflow efficiency.

SKILLS

- CNC Operations
- Quality Management
- Process Optimization
- Safety Protocols
- Team Collaboration
- Inventory Management

LANGUAGES

- English
- Spanish
- French

EDUCATION

**DIPLOMA IN ADVANCED
MANUFACTURING, COMMUNITY
COLLEGE**

ACHIEVEMENTS

- Increased production output by 15% through process improvements and team collaboration.
- Recognized for outstanding contributions to quality assurance initiatives.
- Successfully led a project that reduced polishing time by 10%, improving overall efficiency.

WORK EXPERIENCE

CNC GRINDING TECHNICIAN

Auto Parts Precision

2020 - 2025

- Operated CNC grinding machines to produce automotive components with exacting tolerances.
- Monitored and adjusted machine settings to optimize performance and reduce cycle times.
- Collaborated with design engineers to ensure manufacturability of new components.
- Implemented quality control protocols that resulted in a 25% decrease in defects.
- Trained team members on CNC operations and maintenance procedures.
- Documented production metrics for continuous improvement analysis.

POLISHING TECHNICIAN

Automotive Finishing Group

2015 - 2020

- Executed polishing operations on automotive parts to achieve optimal surface quality.
- Utilized a variety of polishing compounds and techniques based on material properties.
- Maintained a clean and organized work area to promote safety and efficiency.
- Collaborated with quality assurance teams to conduct inspections on finished products.
- Participated in regular team meetings to discuss production goals and challenges.
- Monitored inventory levels of polishing materials and ordered supplies as needed.
