EDUCATION

MASTER OF SCIENCE IN ENVIRONMENTAL SCIENCE, UNIVERSITY OF FLORIDA

ACHIEVEMENTS

- Successfully secured funding for multiple groundwater restoration projects.
- Recognized for excellence in project management with an industry award.
- Authored a guide on best practices for groundwater monitoring and protection.

PROFILE

Results-driven Groundwater Scientist with over 12 years of experience in environmental consulting and water resource management. I specialize in the assessment and remediation of contaminated groundwater sites, employing advanced analytical techniques and innovative technologies. My career has been marked by a commitment to environmental sustainability and community involvement. I have successfully led numerous projects that not only meet regulatory requirements but also promote ecological restoration.

EXPERIENCE

PRINCIPAL GROUNDWATER SCIENTIST

GreenEarth Consulting

2016 - Present

- Oversaw groundwater remediation projects, ensuring compliance with state and federal regulations.
- Designed and implemented site investigations, including soil and groundwater sampling.
- Led multidisciplinary teams in developing innovative solutions for complex contamination issues.
- Conducted risk assessments to evaluate potential impacts on public health and the environment.
- Developed and maintained relationships with regulatory agencies and stakeholders.
- Provided expert testimony in legal cases involving groundwater contamination disputes.

GROUNDWATER SPECIALIST

AquaTech Solutions

2014 - 2016

- Performed hydrogeological assessments to support water resource management projects.
- Utilized groundwater modeling tools to analyze flow patterns and contamination sources.
- Managed groundwater monitoring programs and analyzed data for trend evaluation.
- Prepared comprehensive reports detailing findings and recommendations for clients.
- Conducted training workshops for clients on groundwater protection practices.
- Collaborated with engineers on the design of groundwater treatment systems.
