

Michael ANDERSON

FACILITIES ENGINEERING MANAGER

Accomplished facilities manager with a strong foundation in engineering principles and project management. Expertise in leading facility operations with a focus on safety, reliability, and efficiency. Proven ability to manage budgets, optimize resource allocation, and implement effective maintenance strategies. Known for fostering collaborative relationships with stakeholders to achieve operational goals. Strong analytical skills enable the identification of trends and the implementation of proactive measures to enhance facility performance.

SKILLS

- engineering management
- predictive maintenance
- compliance auditing
- resource optimization
- team collaboration
- training development

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
MECHANICAL ENGINEERING,
MASSACHUSETTS INSTITUTE OF
TECHNOLOGY**

ACHIEVEMENTS

- Successfully led a facility upgrade project that increased production capacity by 20%.
- Recognized for implementing innovative maintenance strategies that improved equipment reliability.
- Awarded the Engineering Excellence Award for contributions to operational safety.

WORK EXPERIENCE

FACILITIES ENGINEERING MANAGER

Advanced Manufacturing Corp.

2020 - 2025

- Managed engineering operations for manufacturing facilities, ensuring compliance with safety and quality standards.
- Led a team of engineers in developing maintenance programs to extend equipment life.
- Implemented a predictive maintenance strategy, reducing equipment downtime by 25%.
- Coordinated facility upgrades to enhance operational efficiency and safety.
- Conducted root cause analysis for facility-related issues, implementing corrective actions.
- Developed training programs for staff on equipment operation and safety procedures.

ASSISTANT FACILITIES MANAGER

Precision Engineering Solutions

2015 - 2020

- Assisted in the oversight of facility operations, ensuring adherence to engineering standards.
- Conducted facility inspections and audits, reporting on compliance and safety issues.
- Managed vendor contracts for maintenance and repair services, ensuring quality and cost-effectiveness.
- Supported the implementation of facility improvement projects to enhance productivity.
- Provided technical support for facility-related inquiries and issues.
- Collaborated with engineering teams to optimize facility layouts and workflows.
