Detail-oriented Headless CMS Developer with a strong background in the healthcare industry, bringing over 7 years of experience in developing and managing content systems that comply with stringent regulations. My role has focused on creating secure and efficient headless CMS solutions that enhance patient engagement and streamline healthcare communication. I have successfully integrated electronic health records (EHR) with content management systems, allowing healthcare providers to deliver timely information to patients.

PROFESSIONAL EXPERIENCE

HealthTech Innovations   *Mar 2018 - Present*
Senior Headless CMS Developer

- Developed a secure headless CMS for a telemedicine platform, enhancing patient information access by 50%.
- Collaborated with medical professionals to ensure compliance with HIPAA regulations.
- Implemented content delivery strategies that improved patient engagement metrics.
- Integrated EHR systems with the CMS, streamlining data retrieval processes.
- Conducted training for healthcare staff on CMS functionalities, increasing usage rates.
- Managed system updates and security patches, ensuring data protection.

MedTech Solutions   *Dec 2015 - Jan 2018*
Headless CMS Developer

- Created a headless CMS for managing patient education content, improving resource accessibility.
- Worked with compliance teams to ensure all content met regulatory standards.
- Optimized the CMS platform for mobile accessibility, increasing user engagement by 30%.
- Developed APIs for integration with healthcare applications.
- Participated in user feedback sessions to continually enhance the system.
- Documented best practices for content management and system usage.

ACHIEVEMENTS

- Enhanced patient engagement scores by 40% through innovative content strategies.
- Recognized for developing a user-friendly interface that increased healthcare staff adoption rates.
- Awarded 'Excellence in Innovation' for contributions to digital patient solutions.
