- Recognized for outstanding contributions to public health research in 2021.
- Successfully led a project that secured \$300,000 in grants for health initiatives.
- Published multiple articles in leading epidemiology journals.

Michael Anderson

EPIDEMIOLOGIST

Experienced Health Behavior Researcher with a solid foundation in epidemiology and health statistics, offering 9 years of experience in both research and applied health settings. Expertise in analyzing population health data to identify trends and inform public health strategies. Proven skills in collaborating with interdisciplinary teams to develop interventions that effectively address health disparities.

EXPERIENCE

EPIDEMIOLOGIST

Public Health Agency

2016 - Present

- Conducted epidemiological studies to assess risk factors associated with chronic diseases.
- Utilized SAS and R for data analysis, resulting in a 45% increase in research accuracy.
- Collaborated with local health departments to implement data-driven interventions.
- Authored research papers that influenced state health policies.
- Presented findings at national conferences, enhancing public health awareness.
- Led training sessions for staff on data collection and analysis methodologies.

HEALTH DATA ANALYST

Community Health Foundation

2014 - 2016

- Analyzed health data to identify trends and inform program development.
- Developed comprehensive reports that guided funding decisions for health programs.
- Collaborated with stakeholders to improve data-sharing practices.
- Utilized GIS mapping tools to visualize health disparities within communities.
- Participated in grant writing efforts that secured funding for new health initiatives.
- Contributed to community presentations to disseminate research findings.
