MICHAEL ANDERSON

CYBERSECURITY RISK MANAGER

Accomplished Health Cybersecurity Specialist with a strong focus on cyber risk management and mitigation strategies within the healthcare industry. Demonstrates an exceptional ability to analyze and improve existing security protocols while ensuring compliance with industry regulations. Renowned for developing tailored training programs that empower healthcare professionals to recognize and respond to cyber threats effectively.

PROFESSIONAL EXPERIENCE

WellCare Health Systems   *Mar 2018 - Present*
Cybersecurity Risk Manager

- Led comprehensive risk assessments to identify and prioritize cybersecurity vulnerabilities.
- Developed risk mitigation strategies tailored to healthcare operations.
- Implemented security awareness training programs for clinical and administrative staff.
- Conducted forensic investigations following security incidents to determine root causes.
- Collaborated with IT teams to enhance data protection measures.
- Monitored compliance with cybersecurity policies and procedures.

CareGuard Technologies   *Dec 2015 - Jan 2018*
Information Security Analyst

- Conducted regular security audits and assessments of healthcare information systems.
- Assisted in the development of incident response plans to address potential threats.
- Utilized data analytics to inform security strategy and resource allocation.
- Provided technical support and guidance to healthcare staff on security issues.
- Engaged in continuous monitoring of network security and threat intelligence.
- Facilitated training sessions on cybersecurity best practices and awareness.

ACHIEVEMENTS

- Achieved a 25% reduction in potential cyber threats through enhanced risk management protocols.
- Recognized for outstanding contributions to cybersecurity education initiatives.
- Successfully led a project that improved incident response times by 50%.
