Michael Anderson

RESEARCH ASSOCIATE

Accomplished Health Data Researcher with over 6 years of experience within the non-profit sector focusing on health equity and access. Expertise in designing and conducting research studies that address health disparities among marginalized communities. Proven ability to analyze qualitative and quantitative data to inform program development and advocacy efforts. Strong interpersonal skills, with a history of successful collaboration with community stakeholders and health organizations.

EXPERIENCE

RESEARCH ASSOCIATE

Equity in Health Initiative

2016 - Present

- Designed and implemented studies on health equity, yielding data that informed local health policy changes.
- Facilitated focus groups to gather qualitative data on community health challenges, leading to targeted interventions.
- Analyzed survey data using advanced statistical methods to highlight disparities in health access.
- Collaborated with local health departments to disseminate findings and promote health equity initiatives.
- Prepared research reports that attracted funding for ongoing health equity projects.
- Trained community health workers on data collection techniques and the importance of health equity.

DATA ANALYST

Health Access Coalition

2014 - 2016

- Conducted data analysis to evaluate community health programs, resulting in a 25% increase in program effectiveness.
- Collaborated with stakeholders to identify data needs and improve reporting processes.
- Utilized qualitative data to advocate for policy changes that improved access to health services.
- Developed informative presentations to share research findings with community partners.
- Managed databases to ensure data integrity and compliance with reporting standards.
- Produced detailed reports that informed strategic planning for health initiatives.
