Michael Anderson

ENVIRONMENTAL HEALTH POLICY SPECIALIST

I am a committed Health Equity Specialist with a unique background in environmental health, bringing over 10 years of experience in addressing the health impacts of environmental factors on underserved communities. My career began in environmental science, where I researched the effects of pollution on public health. This experience fueled my passion for health equity, leading me to work on initiatives that advocate for cleaner, safer environments for all.

EXPERIENCE

ENVIRONMENTAL HEALTH POLICY SPECIALIST

Environmental Justice Organization

2016 - Present

- Developed policies aimed at reducing environmental health risks in vulnerable communities.
- Conducted community assessments to identify environmental hazards.
- Collaborated with local governments to implement environmental regulations.
- Facilitated community workshops on environmental health issues.
- Monitored and reported on the health impacts of environmental policies.
- Advocated for funding to support environmental health initiatives.
