

Michael ANDERSON

HEALTH PHYSICS SUPERVISOR

Innovative Health Physics Specialist with a strong background in radiation safety in the nuclear power industry. For over 12 years, I have focused on ensuring the safety of personnel and the environment in nuclear facilities. My expertise includes performing radiation surveys, implementing safety protocols, and conducting safety training for staff.

SKILLS

- Radiation Safety Management
- Incident Investigation
- Training Development
- Data Analysis
- Regulatory Compliance
- Team Leadership

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER OF SCIENCE IN NUCLEAR ENGINEERING, UNIVERSITY OF ENERGY SCIENCES

ACHIEVEMENTS

- Improved safety compliance rates by 35% through the implementation of new training programs.
- Recognized for leading a successful safety audit with zero findings.
- Contributed to a team that enhanced operational protocols, reducing radiation exposure incidents by 20%.

WORK EXPERIENCE

HEALTH PHYSICS SUPERVISOR

Nuclear Power Facility Inc.

2020 - 2025

- Supervised radiation safety programs for multiple operational units within the facility.
- Conducted routine radiation surveys and assessments to ensure compliance with safety standards.
- Developed and implemented comprehensive training programs for new staff on radiation safety.
- Led incident investigations and developed corrective actions to improve safety protocols.
- Collaborated with engineering teams to enhance radiation shielding in operational areas.
- Maintained records of radiation exposure and safety audits for regulatory reporting.

HEALTH PHYSICIST

Nuclear Safety Corporation

2015 - 2020

- Conducted detailed radiation assessments and safety audits for nuclear facilities.
- Developed emergency response plans for radiation incidents and drills.
- Provided expert guidance on regulatory compliance and safety practices.
- Monitored and analyzed radiation exposure data to identify trends and risks.
- Participated in safety committee meetings to discuss safety performance and improvements.
- Assisted in the development of radiation safety manuals and training materials.
