EDUCATION

BACHELOR OF SCIENCE IN HEALTH INFORMATION MANAGEMENT

ACHIEVEMENTS

- Improved data reporting efficiency by 25% through process automation initiatives.
- Received a commendation for outstanding performance during system integration projects.
- Contributed to a project that enhanced patient data accessibility, improving service delivery metrics.

PROFILE

Results-oriented Health Systems Analyst with 5 years of experience in the healthcare sector, specializing in data management and systems optimization. My expertise lies in analyzing healthcare processes, identifying areas for improvement, and implementing data-driven solutions that enhance patient care and operational efficiency. I possess a deep understanding of various health information systems and have a strong background in project management.

EXPERIENCE

HEALTH SYSTEMS ANALYST

HealthFirst Solutions

2016 - Present

- Analyzed existing health information systems to identify inefficiencies, leading to a 20% improvement in data processing time.
- Collaborated with healthcare providers to develop user-friendly interfaces for new software applications.
- Conducted training for staff on system upgrades, improving user satisfaction scores by 35%.
- Developed and maintained comprehensive documentation for system processes and protocols.
- Utilized SQL to extract and analyze data, providing insights that informed departmental strategies.
- Participated in cross-functional teams to ensure successful project delivery and stakeholder engagement.

JUNIOR DATA ANALYST

Metro Health Services

2014 - 2016

- Assisted in the development of data collection tools, improving data accuracy by 15%.
- Performed routine data audits to ensure compliance with healthcare regulations.
- Supported senior analysts in preparing reports for management, aiding in strategic planning.
- Conducted statistical analyses on patient data to identify trends and inform clinical practices.
- Maintained databases, ensuring data integrity and security measures were upheld.
- Contributed to team meetings by providing insights on data trends and project updates.
