MICHAEL ANDERSON

HEALTH ECONOMICS RESEARCHER

Strategic Health Technology Research Scientist with a robust background in clinical trials and health economics. Expertise in assessing the cost-effectiveness of health technologies and their impact on healthcare delivery systems. Proficient in leveraging analytical tools to inform decision-making and optimize resource allocation within healthcare organizations. Recognized for the ability to synthesize complex data into actionable insights that enhance patient care and operational efficiency.

PROFESSIONAL EXPERIENCE

World Health Organization

Mar 2018 - Present

Health Economics Researcher

- Conducted economic evaluations of health interventions across various countries.
- Developed models to assess the financial implications of new health technologies.
- Collaborated with international teams to standardize research methodologies.
- Published findings in global health forums, influencing policy at the international level.
- Facilitated workshops to train stakeholders on health economics principles.
- Provided expert guidance on budget impact analyses for new health initiatives.

Clinical Trials Institute

Dec 2015 - Jan 2018

Clinical Research Coordinator

- Managed multiple clinical trials evaluating innovative health technologies.
- Ensured compliance with regulatory requirements and ethical standards.
- Coordinated data collection and analysis to support trial objectives.
- Collaborated with medical professionals to recruit and retain trial participants.
- Presented study results to stakeholders, driving interest in technology adoption.
- Contributed to the development of protocols that improved trial efficiency.

ACHIEVEMENTS

- Secured \$500,000 in funding for a health technology evaluation project.
- Presented research at the Global Health Economics Summit, gaining recognition.
- Published influential papers that shaped health technology policy discussions.
