MICHAEL ANDERSON

HEALTHCARE DATA ENGINEER

Dynamic and detail-oriented Healthcare Analytics Engineer with extensive experience in health informatics and data science. Possessing a solid foundation in programming and statistical methodologies, combined with a keen interest in healthcare systems optimization. Over 6 years of experience in applying data analytics to solve complex healthcare challenges, enhance patient outcomes, and improve operational efficiencies.

PROFESSIONAL EXPERIENCE

CareTech Solutions

Mar 2018 - Present

Healthcare Data Engineer

- Designed and developed ETL processes for healthcare data integration, improving data accessibility.
- Implemented data quality checks and validation processes to ensure accuracy and reliability.
- Collaborated with healthcare providers to identify data needs and deliver tailored analytics solutions.
- Utilized Python and SQL for data extraction, transformation, and loading tasks.
- Created comprehensive documentation for data processes and analytics methodologies.
- Trained staff on new data tools and analytics techniques to improve operational outcomes.

Health Insights Group

Dec 2015 - Jan 2018

Junior Data Analyst

- Assisted in the analysis of healthcare data to identify trends and inform clinical practices.
- Developed reports to communicate findings to management and clinical teams.
- Supported the implementation of data governance frameworks to enhance data integrity.
- Participated in training sessions to improve team capabilities in data analysis.
- Utilized Excel and basic SQL for data reporting and visualization.
- Conducted research on industry best practices in healthcare analytics.

ACHIEVEMENTS

- Developed an analytics framework that improved data processing time by 30%.
- Recognized for contributions to a project that increased patient engagement through data insights.
- Actively contributed to a team initiative that enhanced data-driven decision-making across departments.
