

Michael

ANDERSON

SOFTWARE ENGINEER II

Dynamic Healthcare Software Engineer with a focus on leveraging technology to enhance healthcare services and improve patient outcomes. Experienced in designing and developing software applications that address the complex needs of healthcare providers and patients alike. Strong background in systems integration, data analytics, and user experience design, ensuring the delivery of high-quality software solutions.

WORK EXPERIENCE

SOFTWARE ENGINEER II

Digital Health Innovations

2020 - 2025

- Engineered solutions for healthcare data interoperability, improving data exchange between systems.
- Collaborated with cross-functional teams to develop a patient engagement platform.
- Implemented data visualization tools for enhanced reporting capabilities.
- Conducted user training and support to facilitate software adoption.
- Participated in software design discussions to drive continuous improvement.
- Maintained compliance with HIPAA regulations throughout the software lifecycle.

SOFTWARE DEVELOPER INTERN

HealthBridge Technologies

2015 - 2020

- Assisted in the development of a health analytics dashboard for hospitals.
- Supported testing and debugging efforts to ensure software quality.
- Contributed to the design of user interfaces that enhance user engagement.
- Maintained project documentation and reports.
- Participated in team meetings to discuss project progress and challenges.
- Learned about healthcare compliance standards and best practices.
