

# MICHAEL ANDERSON

Software Developer, HealthTech

Analytical HealthTech Engineer with a strong foundation in software development and a keen interest in health informatics. Expertise in creating innovative solutions that leverage technology to enhance healthcare delivery and improve patient outcomes. Demonstrated ability to collaborate with healthcare professionals to identify needs and develop tailored software applications that meet those needs.

## WORK EXPERIENCE

### Software Developer, HealthTech

2020-2023

Digital Health Innovations

- Developed a patient portal that streamlined communication between patients and providers.
- Utilized agile methodologies to enhance software development processes.
- Collaborated with UX designers to improve user experience on health applications.
- Conducted user acceptance testing to validate software functionality.
- Integrated third-party APIs to enhance application capabilities.
- Provided technical support and troubleshooting for end-users.

### Junior Health Informatics Analyst

2019-2020

HealthTech Solutions

- Assisted in the analysis of healthcare data to identify trends and inform decision-making.
- Supported the development of data visualization tools for better insights.
- Collaborated with stakeholders to gather requirements for new technology projects.
- Conducted training sessions for staff on new software applications.
- Maintained documentation of processes and system changes.
- Participated in team meetings to discuss project progress and challenges.

## ACHIEVEMENTS

- Contributed to a 15% increase in patient engagement through the development of user-friendly applications.
- Recognized for outstanding performance in a fast-paced tech environment.
- Achieved a successful software launch that improved operational efficiency by 20%.
