EXPERTISE SKILLS

- High Voltage Transmission
- Data Analytics
- Asset Management
- Compliance
- Team Leadership
- Safety Audits

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Electrical Engineering, State University

MICHAEL ANDERSON

LEAD HIGH VOLTAGE ENGINEER

Results-oriented High Voltage Engineer with over 10 years of experience in the utility sector, focusing on the maintenance and operation of high voltage transmission systems. I have a proven track record in implementing effective maintenance strategies that enhance system reliability and reduce operational costs. My experience encompasses large-scale power projects where I coordinated with local stakeholders to ensure compliance with regulatory requirements.

PROFESSIONAL EXPERIENCE

National Power Corp.

Mar 2018 - Present

Lead High Voltage Engineer

- Oversaw the maintenance and operation of high voltage transmission lines across multiple regions.
- Developed and executed a comprehensive asset management strategy.
- Led a team in conducting annual inspections, increasing operational efficiency by 25%.
- Collaborated with regulatory bodies to ensure compliance with industry standards.
- Utilized data analytics to predict equipment failures and schedule maintenance.
- Conducted training sessions for technicians on high voltage safety procedures.

Regional Electric Company

Dec 2015 - Jan 2018

High Voltage Technician

- Performed troubleshooting and repairs on high voltage equipment.
- Assisted in the installation of new high voltage substations.
- Conducted field tests to ensure equipment met required specifications.
- Maintained meticulous records of maintenance activities and repairs.
- Participated in safety audits to identify potential hazards.
- Provided on-call support during outages, restoring service promptly.

ACHIEVEMENTS

- Recognized for leading a project that reduced downtime by 50% through proactive maintenance.
- Received the 'Excellence in Engineering' award for outstanding project delivery.
- Successfully implemented a new training program for technicians that improved safety compliance.
