EXPERTISE SKILLS

- Electric Vehicle Compliance
- Data Analysis
- Testing Protocols
- Regulatory Reporting
- Cross-Functional Collaboration
- Sustainability Practices

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Science in Electrical Engineering, Stanford University, 2018

MICHAEL ANDERSON

HOMOLOGATION ENGINEER

An innovative homologation engineer with a strong background in the electric vehicle sector, dedicated to ensuring that cutting-edge technologies meet regulatory standards. Skilled in conducting rigorous testing and validation of electric vehicle components, with a focus on sustainability and environmental impact. Known for fostering collaborative relationships with cross-disciplinary teams to drive projects forward and achieve compliance goals.

PROFESSIONAL EXPERIENCE

EcoDrive Innovations

Mar 2018 - Present

Homologation Engineer

- Performed comprehensive testing for electric vehicle systems, ensuring compliance with local and international standards.
- Collaborated with R&D teams to integrate homologation considerations into product development.
- Developed and executed testing plans for battery and charging systems.
- Monitored regulatory changes to adjust compliance strategies accordingly.
- Facilitated training sessions on homologation processes for engineers.
- Produced detailed compliance reports for regulatory submissions.

Future Mobility Group

Dec 2015 - Jan 2018

Junior Homologation Engineer

- Assisted in the testing and validation of electric vehicle components and systems.
- Maintained documentation for compliance testing procedures and outcomes.
- Engaged with suppliers to ensure component compliance with homologation standards.
- Analyzed testing data to identify compliance issues and recommend solutions.
- Supported the homologation team in preparing for audits and inspections.
- Contributed to process improvements that enhanced testing efficiency.

ACHIEVEMENTS

- Successfully contributed to the certification of an innovative electric vehicle model.
- Recognized for outstanding teamwork and collaboration on a high-profile project.
- Developed a training manual on electric vehicle homologation best practices.
