EDUCATION

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING, UNIVERSITY OF CALIFORNIA, BERKELEY, 2015

ACHIEVEMENTS

- Achieved a significant reduction in time-to-market for new products through streamlined compliance processes.
- Received internal recognition for leading a successful product certification initiative.
- Published a white paper on best practices in consumer electronics compliance.

A seasoned homologation engineer with a robust background in the consumer electronics industry, focusing on product compliance with safety and performance standards. Demonstrates a thorough understanding of regulatory requirements across various markets, ensuring that all products meet necessary certifications. Adept at coordinating testing activities and managing documentation to facilitate smooth certification processes.

WORK EXPERIENCE

SENIOR COMPLIANCE ENGINEER
TechGear Solutions
2020 - 2025

- Led compliance testing for consumer electronics products, achieving 100% compliance with industry standards.
- Coordinated testing schedules and managed documentation for certification submissions.
- Worked with cross-disciplinary teams to resolve compliance issues during product development.
- Developed and implemented compliance training programs for new hires.
- Analyzed regulatory changes and adjusted testing protocols accordingly.
- Facilitated audits and inspections by regulatory agencies.

COMPLIANCE ENGINEER
Innovative Electronics Corp.
2015 - 2020

- Conducted safety and performance testing for a range of consumer electronics products.
- Maintained compliance documentation and prepared reports for regulatory submissions.
- Collaborated with product development teams to ensure compliance from concept to production.
- Identified and addressed compliance risks throughout the product lifecycle.
- Participated in industry forums to stay updated on compliance trends.
- Assisted in the development of product safety standards.
