- French

WORK EXPERIENCE

Plant Breeder

2020-2023

Agricultural Research Institute

- Conducted research on plant genetics and breeding strategies.
- Developed new crop varieties with enhanced characteristics.
- Collaborated with scientists on research projects.
- Published findings in leading horticultural journals.
- Managed field trials to assess plant performance.
- Provided technical expertise to farmers on new varieties.

Horticultural Research Associate

2019-2020

University Research Center

- Assisted in research on horticultural science innovations.
- Developed educational resources for farmers.
- Conducted workshops on new breeding techniques.
- Collaborated on grant proposals for research funding.
- Managed data collection for research projects.
- Facilitated partnerships with industry stakeholders.

ACHIEVEMENTS

- Developed five new crop varieties that increased yield by 25%.
- Presented research at international horticultural conferences.
- Published numerous articles in scientific journals.
