

MICHAEL ANDERSON

HOUSING DATA CONSULTANT

PROFILE

Strategic and detail-oriented Housing Data Analyst specializing in the intersection of data science and urban planning. Expertise in utilizing quantitative methods to provide actionable insights that drive housing policy and development. Proven track record in collaborating with governmental and non-governmental organizations to address housing crises through data-driven solutions. Skilled in translating complex datasets into clear, compelling narratives that influence stakeholder decisions.

EXPERIENCE

HOUSING DATA CONSULTANT

National Housing Authority

2016 - Present

- Designed and executed comprehensive data analysis projects to support national housing policies.
- Utilized advanced statistical techniques to identify key factors affecting housing affordability.
- Collaborated with policymakers to develop data-driven recommendations.
- Created interactive data visualizations for public dissemination.
- Provided training sessions for staff on data analysis best practices.
- Conducted impact assessments for housing programs across multiple states.

DATA ANALYST

City Housing Department

2014 - 2016

- Analyzed demographic and housing data to support community development initiatives.
- Developed data collection methodologies to enhance the accuracy of housing assessments.
- Worked closely with local governments to align housing strategies with community needs.
- Implemented a new data management system that improved data accessibility.
- Prepared detailed reports for city council meetings, influencing policy decisions.
- Facilitated community workshops to educate residents on housing resources.
