Michael Anderson

HTML DEVELOPER

I am a results-driven HTML Developer with more than 6 years of experience in the fintech sector. My expertise encompasses developing secure and scalable web applications that facilitate complex financial transactions. I have a strong understanding of security protocols and compliance regulations necessary for the financial industry. My role often involves collaborating with cross-functional teams, including product managers and UX/UI designers, to deliver high-quality products that meet user expectations.

EXPERIENCE

HTML DEVELOPER

FinTech Innovations

2016 - Present

- Developed web applications for financial services using HTML, CSS, and JavaScript frameworks.
- Ensured compliance with security standards and regulations in software development.
- Collaborated with UX designers to create intuitive and secure user interfaces.
