EDUCATION

BACHELOR OF ARTS IN HUMAN GEOGRAPHY, COLLEGE OF SOCIAL SCIENCES, 2014

ACHIEVEMENTS

- Led a successful grant application to fund a community garden project.
- Recognized by the nonprofit sector for innovative community engagement strategies.
- Contributed to a published report on rural resilience and sustainability.

PROFILE

I am a Human Geographer with a specialization in rural and regional development, possessing over 8 years of experience in applied geography. My focus is on leveraging geographic knowledge to foster sustainable development in rural communities. I have worked extensively with nonprofits and governmental organizations to implement community-driven projects that address local challenges.

EXPERIENCE

REGIONAL DEVELOPMENT COORDINATOR

Rural Empowerment Initiative

2016 - Present

- Designed and implemented community development programs in underserved areas.
- Facilitated participatory mapping sessions, engaging over 200 community members.
- Conducted needs assessments to identify key local challenges and opportunities.
- Collaborated with local governments to align development goals with community input.
- Utilized GIS tools to analyze resource distribution and accessibility.
- Reported project outcomes to stakeholders, enhancing transparency and accountability.

GEOGRAPHIC RESEARCH ASSISTANT

University of Rural Studies

2014 - 2016

- Assisted in research projects focused on rural socio-economic dynamics.
- Analyzed survey data to identify trends in rural population shifts.
- Developed research presentations for academic conferences and community forums.
- Co-authored publications on rural development strategies and challenges.
- Supported the development of educational materials for community workshops.
- Participated in field studies, gathering qualitative data through interviews.
