Detail-oriented Hybrid Mobile App Developer with extensive experience in healthcare applications. I have spent over 8 years developing mobile solutions that enhance patient engagement and streamline communication between healthcare providers and patients. My passion lies in utilizing technology to improve healthcare access and outcomes. I have collaborated with medical professionals to understand their needs and translate them into functional mobile applications.

WORK EXPERIENCE

Senior Mobile Developer   2020-2023

HealthTech Solutions

- Developed a mobile application that improved patient appointment scheduling efficiency by 50%.
- Collaborated with healthcare teams to define requirements and ensure compliance with regulations.
- Implemented data encryption and security measures to protect sensitive health information.
- Conducted user training sessions for healthcare providers on app functionalities.
- Utilized analytics to track app usage and identify areas for improvement.
- Contributed to the development of telemedicine features, enhancing patient access to care.

Mobile Application Developer   2019-2020

MedTech Innovations

- Designed and launched a patient engagement app that increased user adoption by 60%.
- Worked alongside UX designers to create accessible and intuitive interfaces for users.
- Integrated APIs for real-time health monitoring and data sharing with healthcare providers.
- Conducted market research to inform app functionalities and features based on user needs.
- Maintained comprehensive documentation for compliance and user training.
- Provided ongoing support and troubleshooting for users, improving overall satisfaction rates.

ACHIEVEMENTS

- Awarded 'Innovation in Healthcare' for the development of an award-winning patient engagement app.
- Achieved a 4.8-star rating on app stores for multiple healthcare applications.
- Presented at an international healthcare conference on mobile health solutions.
