Strategic Identity and Access Management Engineer with over 10 years of experience in the government sector. I have extensive knowledge of creating and implementing IAM solutions that comply with federal regulations and protect sensitive government data. My strengths include developing secure access controls, conducting comprehensive risk assessments, and managing large-scale IAM projects.

WORK EXPERIENCE

Senior IAM Engineer | Government Security Agency   Jan 2022 – Present

- Designed and implemented IAM solutions to comply with federal security standards.
- Conducted risk assessments to identify and mitigate security vulnerabilities.
- Managed IAM projects with budgets exceeding $1 million.
- Developed training programs for government employees on IAM best practices.
- Collaborated with various departments to ensure seamless IAM integration.
- Monitored compliance with government regulations and conducted audits.

IAM Project Manager | Federal IT Solutions   Jul 2019 – Dec 2021

- Oversaw IAM projects to enhance security for government data.
- Worked with stakeholders to define and implement access control policies.
- Reviewed and updated IAM systems to ensure compliance with regulations.
- Provided technical support and guidance for IAM-related queries.
- Engaged in continuous monitoring of user access to detect anomalies.
- Documented IAM procedures and contributed to policy updates.

SKILLS

Government Compliance   Risk Management   Security Assessments   IAM Tools   Project Management

Training Development

EDUCATION

Master of Science in Information Assurance   2015 – 2019
University

ACHIEVEMENTS

- Achieved 100% compliance during federal audits for three consecutive years.
- Led a project that improved IAM processes, resulting in a 40% reduction in security incidents.
- Received recognition for outstanding contributions to government cybersecurity efforts.
