EDUCATION

MASTER OF SCIENCE IN PROSTHODONTICS, UNIVERSITY OF MICHIGAN

ACHIEVEMENTS

- Awarded the Best Educator of the Year, 2019.
- Published multiple articles in dental journals on implant restoration techniques.
- Increased patient referrals by 50% through community outreach programs.

PROFILE

With a solid foundation in prosthodontics and over 15 years of experience in implantology, I specialize in complex restorative cases that require both surgical and prosthetic expertise. My journey began in a prosthodontic residency, where I honed my skills in denture fabrication and restoration. Later, I transitioned into implantology, realizing the profound impact that implants have on patient quality of life.

EXPERIENCE

SENIOR IMPLANTOLOGIST

Ultimate Dental Solutions

2016 - Present

- Executed over 1,200 implant placements with documented high success rates.
- Designed and implemented a comprehensive treatment protocol for complex cases.
- Led a team of dental professionals in interdisciplinary cases, enhancing collaboration.
- Incorporated 3D printing technology for custom surgical guides, increasing accuracy.
- Facilitated patient seminars that increased awareness and understanding of implant options.
- Provided mentorship and training to dental residents and interns.

IMPLANTOLOGY INSTRUCTOR

Dental Institute of Advanced Studies

2014 - 2016

- Taught courses on implant techniques and patient management to dental students.
- Developed curriculum that integrates hands-on training with theoretical knowledge.
- Evaluated student performance and provided constructive feedback to enhance learning.
- Organized guest lectures with industry leaders to enrich student experience.
- Conducted research on the efficacy of different implant materials.
- Collaborated with faculty on curriculum development for advanced dental education.
