SKILLS

- Project Management
- Satellite Servicing
- Team Collaboration
- Data Analysis
- Communication Skills
- Continuous Improvement

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN AEROSPACE
ENGINEERING, UNIVERSITY OF
MICHIGAN**

ACHIEVEMENTS

- Successfully coordinated over 20 in-orbit servicing missions with a 95% success rate.
- Recognized for excellence in project management and team leadership.
- Implemented process improvements that reduced mission costs by 15%.

WORK EXPERIENCE

IN-ORBIT SERVICING PROJECT LEAD

Interstellar Solutions

2020 - 2025

- Led project teams in executing in-orbit servicing missions, ensuring alignment with strategic goals.
- Coordinated with engineering teams to assess satellite health and operational readiness.
- Developed project schedules and managed timelines to ensure timely mission execution.
- Conducted post-mission evaluations to assess success and identify lessons learned.
- Maintained stakeholder engagement through regular updates and feedback sessions.
- Utilized advanced project management tools to enhance team collaboration and efficiency.

MISSION CONTROL SPECIALIST

Celestial Dynamics

2015 - 2020

- Monitored satellite operations, ensuring compliance with mission protocols and objectives.
- Analyzed telemetry data to identify potential issues and recommend corrective actions.
- Collaborated with cross-functional teams to implement servicing solutions effectively.
- Developed training programs for new technologies and operational procedures.
- Maintained comprehensive documentation of mission activities and outcomes.
- Engaged in continuous professional development to stay abreast of industry advancements.
