SKILLS

- Aerospace Engineering
- Satellite Operations
- Project Coordination
- Risk Management
- Client Engagement
- Technical Support

EDUCATION

**MASTER OF SCIENCE IN AEROSPACE
ENGINEERING, STANFORD UNIVERSITY**

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Successfully led 15 in-orbit servicing missions, achieving a 97% operational success rate.
- Awarded for contributions to innovative servicing strategies that enhanced satellite performance.
- Reduced servicing costs by 10% through process optimization initiatives.

Michael Anderson

LEAD SATELLITE OPERATIONS COORDINATOR

Proficient In-Orbit Services Coordinator with a strong background in aerospace engineering and satellite operations. Expertise includes managing complex projects and ensuring the successful execution of in-orbit servicing missions. Demonstrates exceptional organizational abilities and attention to detail, contributing to the effectiveness of project teams. Known for a collaborative approach to working with multidisciplinary teams, fostering a culture of innovation and efficiency.

EXPERIENCE

LEAD SATELLITE OPERATIONS COORDINATOR

Nova Space Solutions

2016 - Present

- Oversaw the coordination of in-orbit servicing operations, ensuring compliance with mission safety standards.
- Managed schedules and resources for servicing teams, optimizing operational efficiency.
- Engaged with clients to define service requirements and expectations.
- Facilitated training workshops on operational best practices and safety protocols.
- Conducted risk assessments and developed mitigation strategies for servicing missions.
- Utilized project management software to track progress and deliverables.

SATELLITE OPERATIONS TECHNICIAN

Galactic Systems

2014 - 2016

- Provided technical support for satellite operations, focusing on system diagnostics and maintenance.
- Collaborated with engineering teams to troubleshoot operational issues and implement solutions.
- Maintained records of satellite performance metrics and operational history.
- Participated in mission planning sessions to align servicing objectives.
- Developed and maintained operational procedures to ensure consistency and quality.
- Engaged in continuous learning to stay current with emerging satellite technologies.
