Detail-oriented Incident Response Analyst with 3 years of experience in the telecommunications industry. My role focused on protecting sensitive customer data and responding to security threats in a rapidly evolving environment. I have a solid understanding of telecommunications infrastructure and the unique security challenges it presents. My analytical skills enable me to conduct thorough investigations and implement effective security measures to protect against data breaches.

💼 WORK EXPERIENCE

Incident Response Analyst   2020-2023

Telecom Security Solutions

- Managed incident response for over 30 security breaches, minimizing customer impact.
- Developed and maintained incident response documentation for compliance purposes.
- Collaborated with engineering teams to address vulnerabilities in telecom systems.
- Trained employees on recognizing and reporting security incidents.
- Utilized advanced security tools to monitor network traffic.
- Conducted post-incident reviews to improve future response strategies.

Security Analyst   2019-2020

National Telecom Corp

- Monitored network security alerts and escalated incidents as necessary.
- Assisted in the implementation of security policies and protocols.
- Participated in security assessments to identify potential risks.
- Provided support during incident investigations, gathering necessary data.
- Maintained up-to-date knowledge of cybersecurity trends in telecommunications.
- Contributed to incident reporting for compliance audits.

⭐ ACHIEVEMENTS

- Recognized for quick response during a critical security incident.
- Achieved a 95% satisfaction rating from customer feedback on security measures.
- Implemented a new logging system that improved incident tracking.
