SKILLS

- Control systems
- Project management
- Robotics
- Team leadership
- Technical documentation
- Problem-solving

LANGUAGES

- English
- Spanish
- French

EDUCATION

**MASTER OF ENGINEERING IN
AUTOMATION, NATIONAL UNIVERSITY,
2012**

ACHIEVEMENTS

- Reduced project costs by 20% through effective resource management.
- Received recognition for leading a successful automation project that improved production efficiency by 30%.
- Implemented a new training program that decreased equipment downtime by 25%.

WORK EXPERIENCE

LEAD AUTOMATION ENGINEER

Innovative Manufacturing Group

2020 - 2025

- Led automation projects, overseeing all phases from design to implementation.
- Developed control strategies for complex manufacturing processes.
- Managed a team of engineers and technicians in project execution.
- Ensured compliance with safety and quality standards throughout projects.
- Created detailed project documentation and reports for stakeholders.
- Conducted post-implementation reviews to assess project success.

AUTOMATION TECHNICIAN

Precision Controls Inc

2015 - 2020

- Installed and configured automation systems for various applications.
- Provided technical support for troubleshooting automation issues.
- Assisted in the development of user manuals and training materials.
- Conducted regular maintenance checks on automation equipment.
- Documented system changes and improvements for future reference.
- Collaborated with engineers on system upgrades and enhancements.
