PROFILE

Results-driven Industrial Engineering Analyst with a focus on supply chain optimization and logistics. Over 8 years of experience in the automotive industry, analyzing supply chain processes to enhance efficiency and reduce costs. Proficient in using advanced analytics tools to assess inventory management and improve order fulfillment rates. A strong team player, adept at collaborating with procurement and manufacturing departments to ensure seamless operations.

EXPERIENCE

SUPPLY CHAIN ANALYST

AutoParts Inc.

2016 - Present

- Analyzed and optimized supply chain processes, leading to a 25% decrease in operational costs.
- Developed predictive models to improve inventory turnover rates and reduce stockouts.
- Collaborated with suppliers to enhance delivery schedules and quality assurance protocols.
- Implemented a new inventory management system that improved tracking and reporting.
- Conducted regular audits of supply chain performance metrics to identify areas for improvement.
- Facilitated training sessions for staff on new supply chain management tools and practices.

LOGISTICS COORDINATOR

Transport Solutions Ltd.

2014 - 2016

- Coordinated logistics operations to ensure timely delivery of products across multiple regions.
- Developed routing plans that reduced transportation costs by 15%.
- Managed relationships with freight carriers and negotiated contracts for optimal pricing.
- Monitored and reported on logistics KPIs, facilitating data-driven decision-making.
- Led cross-departmental initiatives to streamline logistics processes and improve service levels.
- Implemented technology solutions to enhance real-time tracking of shipments.
