EDUCATION

MASTER'S IN PUBLIC HEALTH FROM JOHNS HOPKINS UNIVERSITY

ACHIEVEMENTS

- Led a research project that identified critical health service gaps in disadvantaged communities.
- Recognized with the Excellence in Research Award for impactful studies on health disparities.
- Secured funding for a community health initiative that improved access to preventive care.

PROFILE

Enthusiastic Inequality Researcher with a strong background in public health and socioeconomic disparities. Over 7 years of experience in analyzing the intersections of health outcomes and economic status. Skilled in conducting field research and utilizing epidemiological methods to study health inequalities. Committed to improving health equity through informed policy recommendations. Proven ability to work collaboratively with interdisciplinary teams to address complex health issues related to economic disparities.

EXPERIENCE

PUBLIC HEALTH RESEARCHER

Global Health Institute

2016 - Present

- Investigated the health impacts of economic inequality on community health outcomes.
- Designed and implemented surveys to gather qualitative and quantitative data.
- Utilized GIS mapping to visualize health disparities across different regions.
- Collaborated with healthcare providers to improve service delivery in low-income areas.
- Presented findings to stakeholders, influencing health policy at the local level.
- Published research findings in leading public health journals.

FIELD RESEARCH COORDINATOR

Health Equity Network

2014 - 2016

- Coordinated data collection efforts for studies on health disparities.
- Trained and supervised a team of research assistants in data collection methods.
- Engaged with community leaders to ensure culturally competent research practices.
- Analyzed survey results to identify trends in health access and outcomes.
- Facilitated workshops to disseminate research findings to community stakeholders.
- Contributed to grant writing efforts that secured funding for health equity initiatives.
