Michael Anderson

ENVIRONMENTAL JUSTICE RESEARCHER

Innovative Inequality Researcher with a focus on environmental justice and socio-economic disparities. Over 6 years of experience in researching the intersection of environmental issues and economic inequality. Skilled in utilizing mixed research methods to analyze how environmental policies disproportionately affect low-income communities. Committed to advocating for sustainable practices that promote equity in environmental decision-making.

EXPERIENCE

ENVIRONMENTAL JUSTICE RESEARCHER

Green Justice Institute

2016 - Present

- Conducted research on the impact of environmental policies on marginalized communities.
- Utilized GIS tools to analyze spatial data related to environmental hazards.
- Collaborated with community organizations to address local environmental concerns.
- Presented findings to policymakers, advocating for equitable environmental practices.
- Developed educational materials to raise awareness about environmental justice issues.
- Participated in workshops to train stakeholders on sustainable practices.

RESEARCH INTERN

Sustainable Development Institute

2014 - 2016

- Assisted in the analysis of data on environmental impacts in low-income areas.
- Supported senior researchers in developing grant proposals for environmental justice projects.
- Engaged with local communities to gather qualitative data on environmental concerns.
- Contributed to reports highlighting the need for equitable environmental policies.
- Helped organize community engagement events to discuss environmental issues.
- Participated in field studies to assess environmental conditions in affected areas.
