### SUMMARY

As a dedicated Infection Control Nurse with over 8 years of experience in acute care settings, I specialize in developing and implementing infection prevention protocols that safeguard patient health. My comprehensive background in nursing and infectious disease management has equipped me with the skills necessary to educate staff, optimize infection control practices, and lead quality improvement initiatives.

---

### WORK EXPERIENCE

#### Infection Control Nurse City Hospital

*Jan 2023 - Present*

- Developed and implemented infection prevention protocols that reduced MRSA infections by 30% over two years.
- Conducted regular training sessions for over 200 healthcare staff members on best practices in infection control.
- Monitored infection rates and reported findings to hospital management to inform policy changes.
- Collaborated with pharmacists to ensure appropriate antibiotic stewardship practices.
- Led a task force to address and prevent outbreaks of healthcare-associated infections.
- Utilized electronic health record systems to track infection data and streamline reporting processes.

#### Staff Nurse General Medical Center

*Jan 2020 - Dec 2022*

- Provided direct patient care in a fast-paced surgical unit, focusing on infection prevention measures.
  - Assisted in the development of post-operative care protocols that included infection control strategies.
  - Trained new nursing staff on infection control best practices and compliance requirements.
  - Participated in quality improvement projects aimed at reducing central line-associated bloodstream infections.
  - Conducted patient education on hygiene practices to prevent infections post-discharge.
  - Collaborated with multidisciplinary teams to address infection control issues in the surgical department.
- 

### EDUCATION

#### Master of Science in Nursing, Focus on Infection Control, University of Health Sciences

*Sep 2019 - Oct 2020*
