- Led training programs that improved staff compliance with infection control protocols by 50%.

Michael Anderson

INFECTION CONTROL NURSE

I am a seasoned Infection Control Nurse with over 10 years of experience specializing in long-term care facilities. My passion lies in implementing infection prevention strategies that protect vulnerable populations from infectious diseases. I possess a Master's degree in Nursing and have acquired certification in Infection Control (CIC). My role involves conducting thorough infection assessments, developing tailored infection control programs, and providing training to staff on compliance with best practices.

EXPERIENCE

INFECTION CONTROL NURSE

Sunrise Long-Term Care Facility

2016 - Present

- Implemented infection control protocols that led to a 45% reduction in infection rates among residents.
- Conducted staff training sessions on infection prevention and control standards.
- Monitored compliance with infection control measures and conducted quality audits.
- Collaborated with healthcare providers to develop individualized care plans focusing on infection prevention.
- Engaged residents and families in education about infection control practices.
- Utilized data management systems to track infection outbreaks and report findings to management.

STAFF NURSE

Green Valley Nursing Home

2014 - 2016

- Provided nursing care to residents while ensuring adherence to infection control protocols.
- Educated staff on the importance of infection prevention in long-term care.
- Assisted in developing infection control programs tailored to the needs of the elderly.
- Monitored and reported on infection rates and compliance with protocols.
- Collaborated with interdisciplinary teams to optimize infection control practices.
- Participated in quality improvement initiatives to enhance patient safety.
