As a passionate Infection Control Nurse with a focus on research and policy development, I have over 11 years of experience in various healthcare settings. My expertise includes developing and implementing infection control policies that meet regulatory standards while improving patient safety. I hold a Master's degree in Nursing and have completed advanced training in infection prevention.

WORK EXPERIENCE

Infection Control Nurse | General Health Services

Jan 2022 – Present

- Developed and revised infection control policies, resulting in a 20% decrease in infection rates.
- Conducted training sessions on infection prevention for healthcare staff across multiple facilities.
- Engaged in research initiatives that informed policy development and best practices.
- Monitored compliance with infection control measures and provided feedback for improvement.
- Collaborated with teams to implement infection prevention strategies based on current research.
- Presented findings to stakeholders to promote infection control initiatives.

Infection Control Consultant | Healthcare Innovations

Jul 2019 – Dec 2021

- Provided consultation services to healthcare facilities on infection prevention policies and practices.
- Assisted in the development of training materials for healthcare personnel.
