ACHIEVEMENTS

- Recognized for leading a cloud migration project that adhered to compliance standards while improving system performance.
- Received the 'Outstanding Performance' award for contributions to enhancing security protocols.
- Achieved AWS Certified Security - Specialty certification.

Innovative Information Security Consultant with over 8 years of experience in the technology industry, specializing in cloud security and data protection. My approach combines technical expertise with a strong understanding of business needs, allowing me to develop security solutions that not only mitigate risks but also enable growth. I have successfully managed security projects involving cloud migrations, ensuring compliance with industry standards such as SOC 2 and ISO 27001.

EXPERIENCE

CLOUD SECURITY CONSULTANT
CloudGuard Technologies
2016 - Present

- Led a cloud security project that improved data protection measures, reducing unauthorized access incidents by 60%.
- Conducted risk assessments for cloud infrastructure, identifying vulnerabilities and implementing necessary controls.
- Developed incident response plans tailored for cloud environments, enhancing organizational readiness.
- Provided training sessions on cloud security best practices for technical and non-technical staff.
- Collaborated with engineering teams to integrate security into the software development lifecycle.
- Utilized tools such as AWS CloudTrail and Azure Security Center for continuous monitoring and compliance checks.

INFORMATION SECURITY SPECIALIST
TechSecure Innovations
2014 - 2016

- Implemented security policies that aligned with business objectives, enhancing overall security posture.
- Conducted regular security audits and assessments, identifying areas for improvement.
- Trained over 100 employees on identifying security threats and proper incident reporting procedures.
- Utilized SIEM tools to monitor network traffic and respond to incidents promptly.
- Participated in the development of a security awareness program, increasing employee participation by 40%.
- Reported to senior management on security metrics and trends, guiding strategic decisions.
