MICHAEL ANDERSON

PENETRATION TESTER

Innovative Information Security Engineer with over 6 years of experience specializing in penetration testing and ethical hacking. My passion lies in identifying security vulnerabilities and presenting practical solutions to mitigate risks before they can be exploited. I have worked in both private and public sectors, honing my skills in various security frameworks and tools.

PROFESSIONAL EXPERIENCE

Cyber Defense Agency   *Mar 2018 - Present*
Penetration Tester

- Executed penetration tests on web applications and networks to identify vulnerabilities.
- Developed detailed reports with actionable remediation strategies for clients.
- Participated in red team exercises to simulate real-world attacks.
- Provided training for junior analysts on penetration testing techniques.
- Collaborated with development teams to improve secure coding practices.
- Utilized various tools such as Metasploit and Burp Suite for testing.

Fortress Technologies   *Dec 2015 - Jan 2018*
Security Analyst

- Conducted security assessments and vulnerability scans on enterprise systems.
- Monitored and analyzed security alerts to identify potential threats.
- Developed incident response plans to effectively handle security breaches.
- Participated in security awareness training for employees.
- Maintained security documentation and compliance records.
- Assisted in firewall and IDS/IPS configuration management.

ACHIEVEMENTS

- Successfully identified critical vulnerabilities that led to a 50% reduction in security incidents.
- Recognized for excellence in conducting red team exercises that enhanced security protocols.
- Received 'Best Employee' award for outstanding contributions to vulnerability management.
