WORK EXPERIENCE

Cloud Automation Specialist

2020-2023

NextGen Tech

- Implemented infrastructure as code using Terraform and Chef, streamlining deployment processes.
- Automated cloud resource management tasks, improving response times by 25%.
- Worked closely with developers to enhance CI/CD pipelines for faster releases.
- Monitored cloud environments and provided recommendations for cost optimization.
- Created detailed documentation for processes and infrastructure setups.
- Participated in cross-functional team discussions to align infrastructure needs with business goals.

Junior Infrastructure Engineer

2019-2020

Smart Solutions Co.

- Assisted in deploying applications to cloud environments using Terraform.
- Provided support for monitoring solutions, ensuring system uptime.
- Engaged in troubleshooting infrastructure issues, improving response times.
- Contributed to documentation efforts for cloud processes and best practices.
- Participated in team meetings to discuss project progress and challenges.
- Learned and applied cloud security best practices in daily tasks.

ACHIEVEMENTS

- Reduced deployment time by 30% through automation initiatives.
- Recognized for outstanding contributions to team projects and collaboration.
- Successfully implemented a new monitoring system that improved response times.
