WORK EXPERIENCE

Transportation Asset Manager 2020-2023
National Transportation Agency

- Directed asset management for a portfolio of transportation infrastructure projects.
- Implemented asset performance monitoring systems that improved safety metrics by 30%.
- Collaborated with engineering teams to develop maintenance schedules and budgets.
- Conducted risk assessments to identify and mitigate potential hazards on transportation assets.
- Engaged with community stakeholders to enhance public awareness and support for projects.
- Presented progress reports to government officials and funding agencies.

Asset Management Specialist 2019-2020
State Department of Transportation

- Assisted in the management of state transportation assets, focusing on maintenance and upgrades.
- Utilized GIS tools to assess asset conditions and inform decision-making.
- Collaborated with contractors to ensure compliance with safety and performance standards.
- Prepared reports on asset performance and funding requirements.
- Supported project planning and execution for transportation infrastructure initiatives.
- Facilitated public meetings to gather input on transportation projects.

ACHIEVEMENTS

- Successfully reduced transportation asset maintenance costs by 20% through strategic planning.
- Recognized for excellence in project delivery by state transportation officials.
- Led a community outreach program that increased public engagement in transportation planning.
