Master of Urban Planning
Urban Institute
2016-2020

⭐ SKILLS

- Urban planning
- Transportation modeling
- Community engagement
- Data analysis
- Project management
- Sustainability

🗣 LANGUAGES

- English
- Spanish
- French

As a passionate and skilled Infrastructure Planning Engineer with 9 years of experience, I have focused my career on urban infrastructure and smart city initiatives. My expertise encompasses transportation planning, public utilities, and community development. I have a proven ability to engage stakeholders and navigate the complexities of urban planning regulations.

💼 WORK EXPERIENCE

Urban Infrastructure Planner   2020-2023

CitySmart Innovations

- Developed comprehensive urban infrastructure plans for a major city redevelopment project.
- Utilized simulation software to assess traffic flow and public transportation needs.
- Engaged with community members to gather input and address concerns effectively.
- Achieved a reduction in traffic congestion by 30% through effective planning strategies.
- Collaborated with environmental agencies to ensure compliance with sustainability standards.
- Presented project proposals to city council, securing funding for future phases.

Transportation Planner   2019-2020

Metro Planning Agency

- Conducted traffic studies to identify areas for infrastructure improvement.
- Developed and implemented public transit initiatives to enhance accessibility.
- Collaborated with local businesses to address transportation challenges in the area.
- Monitored project progress and adjusted plans based on community feedback.
- Produced reports for public meetings, increasing transparency and public engagement.
- Facilitated workshops to educate the public on upcoming transportation projects.

⭐ ACHIEVEMENTS

- Received the 'Community Impact Award' for outstanding contributions to urban development.
- Successfully led a project that improved public transportation ridership by 25%.
- Implemented a new outreach strategy that increased public participation by 40%.
