

MICHAEL ANDERSON

INFRASTRUCTURE RISK MANAGER

PROFILE

Accomplished Infrastructure Risk Analyst with a robust background in risk analysis and management within the engineering sector. Expertise in conducting thorough risk assessments and developing strategic risk management plans that align with organizational goals. Proven ability to identify potential risks early in project lifecycles, thereby minimizing impacts on timelines and budgets.

EXPERIENCE

INFRASTRUCTURE RISK MANAGER

Tech Infrastructure Solutions

2016 - Present

- Led risk assessment initiatives for major infrastructure projects, ensuring timely identification of risks.
- Developed and implemented comprehensive risk management plans.
- Utilized risk analysis software to quantify and prioritize risks effectively.
- Collaborated with project managers to integrate risk management into project planning.
- Conducted regular risk reviews and updates for ongoing projects.
- Presented risk reports to executive leadership, highlighting key risks and mitigation strategies.

RISK ANALYST

Premier Engineering Group

2014 - 2016

- Assisted in the identification and evaluation of risks associated with infrastructure projects.
- Developed risk documentation and maintained risk registers.
- Participated in project team meetings to discuss risk-related issues.
- Provided insights based on data analysis to inform risk mitigation strategies.
- Facilitated training sessions on risk awareness for project teams.
- Monitored compliance with risk management policies and procedures.
