# MICHAEL ANDERSON

## LEAD INTEGRATION DEVELOPER

As an Integration Developer with over 8 years of experience, I have honed my skills in delivering complex integration solutions across various industries, including finance and healthcare. My expertise lies in designing robust architectures that facilitate seamless data exchange between disparate systems. I have a strong background in working with enterprise-level integration platforms and have successfully led multiple projects that resulted in significant cost savings and operational efficiencies.

## **PROFESSIONAL EXPERIENCE**

### **Finance Solutions Corp.**

*Mar 2018 - Present*

#### Lead Integration Developer

- Led a team of developers in the design and implementation of integration solutions for financial applications.
- Architected a middleware solution that reduced data processing times by 40%.
- Worked closely with compliance teams to ensure adherence to regulatory standards during integrations.
- Facilitated workshops to gather requirements from stakeholders, ensuring alignment with business goals.
- Developed comprehensive testing plans to validate integration workflows.
- Mentored junior developers, fostering their professional growth and development.

### **Healthcare Innovations**

*Dec 2015 - Jan 2018*

#### Integration Developer

- Implemented integration patterns using Microsoft Azure Service Bus for healthcare applications.
- Worked on data migration projects, ensuring accuracy and integrity during the transition.
- Collaborated with cross-functional teams to map out integration requirements and deliver solutions.
- Designed API endpoints, improving access to healthcare data for partners.
- Conducted performance tuning and optimization of existing integrations.
- Provided documentation and training for end-users on new integration functionalities.

## **ACHIEVEMENTS**

- Reduced integration costs by 25% through the implementation of a new middleware architecture.
- Awarded 'Employee of the Year' for exceptional contributions to major integration projects.
- Successfully led a project that integrated over 10 systems, enhancing data accessibility for stakeholders.
