EXPERTISE SKILLS

- Software Development
- Traffic Analysis
- Project Management
- Regulatory Compliance
- Machine Learning
- Community Outreach

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Master of Engineering in Transportation Systems, University of Illinois at Urbana-Champaign

MICHAEL ANDERSON

SMART TRANSPORT SYSTEMS DEVELOPER

Innovative Intelligent Transport Systems Specialist with a strong emphasis on integrating technology to develop sustainable transport solutions. Demonstrated expertise in managing complex projects from conception through implementation, with a focus on enhancing traffic management systems. Possesses a comprehensive understanding of regulatory frameworks and best practices in transportation engineering. Adept at collaborating with diverse teams to achieve project goals while maintaining a sharp focus on safety and efficiency.

PROFESSIONAL EXPERIENCE

NextGen Mobility Corp.   *Mar 2018 - Present*
Smart Transport Systems Developer

- Developed innovative software for traffic signal optimization.
- Collaborated with urban planners to design intelligent transport networks.
- Utilized machine learning algorithms to enhance traffic prediction accuracy.
- Conducted field tests to evaluate system performance and reliability.
- Presented findings to stakeholders to facilitate informed decision-making.
- Managed project timelines and budgets to ensure successful delivery.

City Transport Authority   *Dec 2015 - Jan 2018*
Transport Engineering Specialist

- Contributed to the design and implementation of intelligent transport systems.
- Conducted traffic impact assessments for proposed developments.
- Engaged with community stakeholders to gather feedback on transport initiatives.
- Analyzed traffic data to inform the development of congestion mitigation strategies.
- Prepared technical reports for regulatory compliance.
- Facilitated training sessions for operational staff on new technologies.

ACHIEVEMENTS

- Developed a traffic management app that won a national innovation award.
- Improved traffic flow efficiency by 15% across major corridors.
- Published research in a leading transportation journal.
