**Bachelor of Science in Telecommunications - Tech University**

University

2016-2020

## SKILLS

- Swift
- Objective-C
- VoIP
- Real-time Messaging
- User Experience Design
- Agile

## LANGUAGES

- English
- Spanish
- French

Experienced iOS Application Developer with 7 years in the telecommunications industry, focused on creating applications that enhance communication experiences. I have a comprehensive understanding of Swift and Objective-C, along with expertise in integrating VoIP technologies and real-time messaging features. My background includes working closely with product managers to define app functionalities that align with user needs and business goals.

## 💼 WORK EXPERIENCE

### Lead iOS Developer
2020-2023

Telecom Innovations Group

- Led the development of a VoIP application with over 200,000 active users, enhancing communication capabilities.
- Integrated real-time messaging features, resulting in a 30% increase in user engagement.
- Worked with cross-functional teams to define app requirements and functionalities.
- Optimized app performance, reducing latency and improving user experience.
- Mentored junior developers, fostering technical growth within the team.
- Conducted code reviews to ensure adherence to best practices and standards.

### iOS Developer
2019-2020

ConnectTech Solutions

- Developed mobile applications that enhanced customer communication, improving satisfaction scores by 25%.
- Collaborated with design teams to create intuitive interfaces for better user experiences.
- Implemented analytics to track user behavior and inform app improvements.
- Engaged in Agile development processes to enhance team collaboration and efficiency.
- Utilized Git for version control, streamlining the development workflow.
- Conducted user testing to validate app features and functionalities.

## ⭐ ACHIEVEMENTS

- Received 'Best App' award for the VoIP application at the Telecom Awards.
- Achieved a 4.8-star rating on the App Store for the messaging app.
- Increased customer satisfaction scores by 30% through effective app enhancements.
