SKILLS

- Project coordination
- Mechanical design
- Stakeholder communication
- Performance analysis
- Training and development
- Budget management

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
MECHANICAL ENGINEERING,
UNIVERSITY OF FLORIDA**

ACHIEVEMENTS

- Successfully delivered a major irrigation project under budget and ahead of schedule.
- Awarded 'Top Innovator' for contributions to irrigation system design.
- Implemented a training program that improved team productivity by 15%.

Strategic Irrigation Systems Manager with a proven track record in optimizing agricultural irrigation systems for enhanced productivity and sustainability. Background in mechanical engineering, combined with extensive experience in project management and team leadership. Skilled in stakeholder engagement and collaborative problem-solving, ensuring alignment between technical solutions and business strategies. Expertise in managing large-scale irrigation projects, with a focus on delivering measurable results and fostering innovation.

WORK EXPERIENCE

IRRIGATION SYSTEMS PROJECT COORDINATOR

Sustainable Agriculture Group

2020 - 2025

- Coordinated the design and implementation of irrigation systems for organic farms.
- Managed project budgets and timelines to ensure project delivery.
- Facilitated communication between project stakeholders and team members.
- Conducted training on sustainable irrigation practices for clients.
- Monitored and reported on system performance metrics.
- Developed partnerships with local organizations to promote water conservation.

MECHANICAL ENGINEER - IRRIGATION SYSTEMS

AgriSolutions Inc.

2015 - 2020

- Designed mechanical components for irrigation systems to enhance durability.
- Conducted stress analysis and performance testing on irrigation equipment.
- Worked with cross-functional teams to integrate new technologies into existing systems.
- Provided technical documentation for system designs and specifications.
- Participated in product development meetings to discuss innovations.
- Trained junior engineers on best practices in irrigation system design.
