# Michael Anderson

## IT INFRASTRUCTURE ANALYST

Accomplished IT Infrastructure Analyst with extensive experience in the logistics sector, spanning over 7 years. I specialize in creating efficient and reliable IT frameworks that support supply chain operations and enhance productivity. My proficiency in system integration and data management ensures seamless operations across diverse platforms. I have a strong track record of evaluating existing IT systems to identify bottlenecks and implement solutions that drive operational excellence.

## EXPERIENCE

### IT INFRASTRUCTURE ANALYST

LogiTech Solutions

2016 - Present

- Designed and implemented an integrated inventory management system that increased efficiency by 35%.
- Conducted system evaluations that identified and resolved operational bottlenecks, enhancing productivity.
- Collaborated with logistics teams to develop IT solutions that streamlined supply chain processes.
- Managed IT projects that improved system interoperability between suppliers and clients.
- Provided training and support to staff on new technology implementations, fostering a culture of innovation.
- Monitored system performance and made recommendations for upgrades, ensuring optimal operation.

### SYSTEMS ANALYST

Transport Solutions Inc.

2014 - 2016

- Assisted in the development of a logistics management system, reducing delivery times by 20%.
- Provided technical support for logistics software, ensuring minimal disruptions in operations.
- Analyzed data trends to inform decision-making processes within the logistics department.
- Participated in cross-functional meetings to ensure IT strategies aligned with business goals.
- Documented processes and user guides to enhance training and onboarding efforts.
- Collaborated with vendors to ensure timely updates and support for logistics systems.
