# MICHAEL ANDERSON

## CLOUD SYSTEMS ENGINEER

I am an IT Systems Engineer with 5 years of experience focusing on cloud solutions and automation. My background includes extensive work with virtualization technologies and a keen interest in optimizing IT environments for performance and cost-efficiency. I thrive in dynamic settings where I can apply my analytical skills to solve complex technical challenges.

## PROFESSIONAL EXPERIENCE

### **Future Tech Labs**

*Mar 2018 - Present*

#### Cloud Systems Engineer

- Designed and deployed cloud infrastructure using Azure, reducing operational costs by 25%.
- Automated deployment processes with Terraform, speeding up provisioning by 40%.
- Implemented security best practices that led to zero vulnerabilities during audits.
- Collaborated with development teams to integrate cloud services into applications.
- Monitored cloud resources, optimizing usage and enhancing performance.
- Documented system architectures, improving knowledge sharing within the team.

### **Digital Solutions Inc.**

*Dec 2015 - Jan 2018*

#### IT Support Engineer

- Provided technical support to clients, achieving a 98% resolution rate on first contact.
- Assisted in system upgrades that improved user experience and functionality.
- Conducted training for staff on new software tools to enhance productivity.
- Maintained IT documentation, ensuring compliance with company standards.
- Collaborated with vendors to troubleshoot hardware issues, minimizing downtime.
- Participated in team meetings to discuss and resolve technical challenges.

## ACHIEVEMENTS

- Implemented a cloud optimization strategy that saved \$50,000 annually.
- Recognized as 'Top Performer' in customer service for 2019.
- Completed AWS Cloud Practitioner certification to enhance cloud knowledge.
