- French

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

ACHIEVEMENTS

- Led a project that increased system reliability, resulting in a 99% uptime rate.
- Received 'Excellence in Service Award' for outstanding IT support.
- Implemented a cost-saving initiative that reduced IT expenditures by 20%.

IT SYSTEMS ENGINEER

As a dedicated IT Systems Engineer with over 7 years of experience, my focus has been on enhancing system reliability and performance in corporate environments. I excel in analyzing complex IT infrastructures to identify bottlenecks and implement strategic improvements. My background includes extensive work with servers, storage solutions, and network configurations.

WORK EXPERIENCE

IT SYSTEMS ENGINEER

NextGen Technologies

2020 - 2025

- Managed the deployment of new server architecture, increasing processing speed by 30%.
- Enhanced system monitoring capabilities, leading to a 20% reduction in incident response time.
- Collaborated with vendors for hardware procurement, negotiating cost savings of 15%.
- Implemented backup strategies that improved data recovery times by 50%.
- Trained junior staff on system maintenance protocols, fostering team development.
- Conducted performance assessments, resulting in optimized resource allocation.

SYSTEMS ADMINISTRATOR

Enterprise Solutions Group

2015 - 2020

- Maintained IT infrastructure for a user base of over 300, ensuring consistent uptime.
- Executed system upgrades that improved overall network performance.
- Developed standard operating procedures for IT support, enhancing response efficiency.
- Monitored system logs to identify potential issues before they escalated.
- Provided technical documentation for IT processes, improving team knowledge.
- Participated in disaster recovery drills, ensuring team preparedness.
